Title: Lecture Series presented by KPMG- Remarkable Creatures: Epic Adventures in the Search for the Origins of Species

Date: Oct 21, 2009 04:00 PM

URL: http://pirsa.org/09100021

Abstract: The search for the origins of species has entailed a series of great adventures over the past 200 years. This talk will chronicle the exploits of a group of explorers who walked where no one had walked, saw what no one had seen, and thought what no one else had thought. Their achievements sparked a revolution that changed, profoundly and forever, our perception of the living world and our place within it.
