Abstract:

Join us for The Art of Giving Scientific Talks by Shohini Ghose, Professor of Physics and Computer Science at Wilfrid Laurier University. Shohini is a TED Senior Fellow, NSERC Chair for Women in Science and Engineering, Director, Centre for Women in Science (WinS), and Chief Technology Officer at the Quantum Algorithms Institute. She is also the award-winning author of *Her Space, Her Time*.

In this session, Shohini will share key strategies for delivering impactful and engaging scientific talks.

How not to put people to sleep. but not oversimplify

How to speak with authority

Clarity, conciseness, brevity

NOVICE EXPERT
