HOW TRAILBLAZING WOMEN
SCIENTISTS DECODED THE
HIDDEN UNIVERSE

HER
SPACE,
HER
TIME

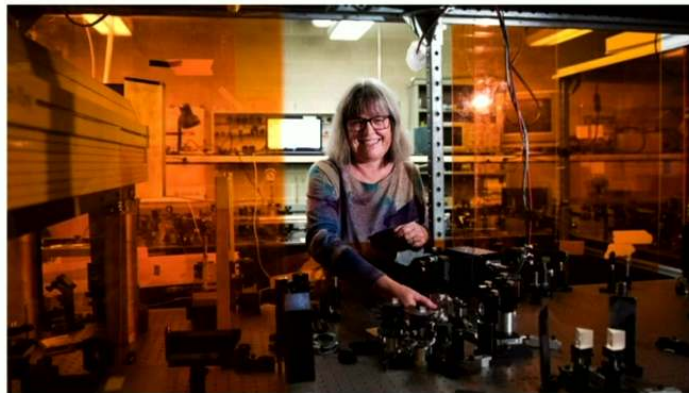

SHOHINI GHOSE

Technology & Science

Half of Canadians can't name a woman scientist or engineer, poll finds

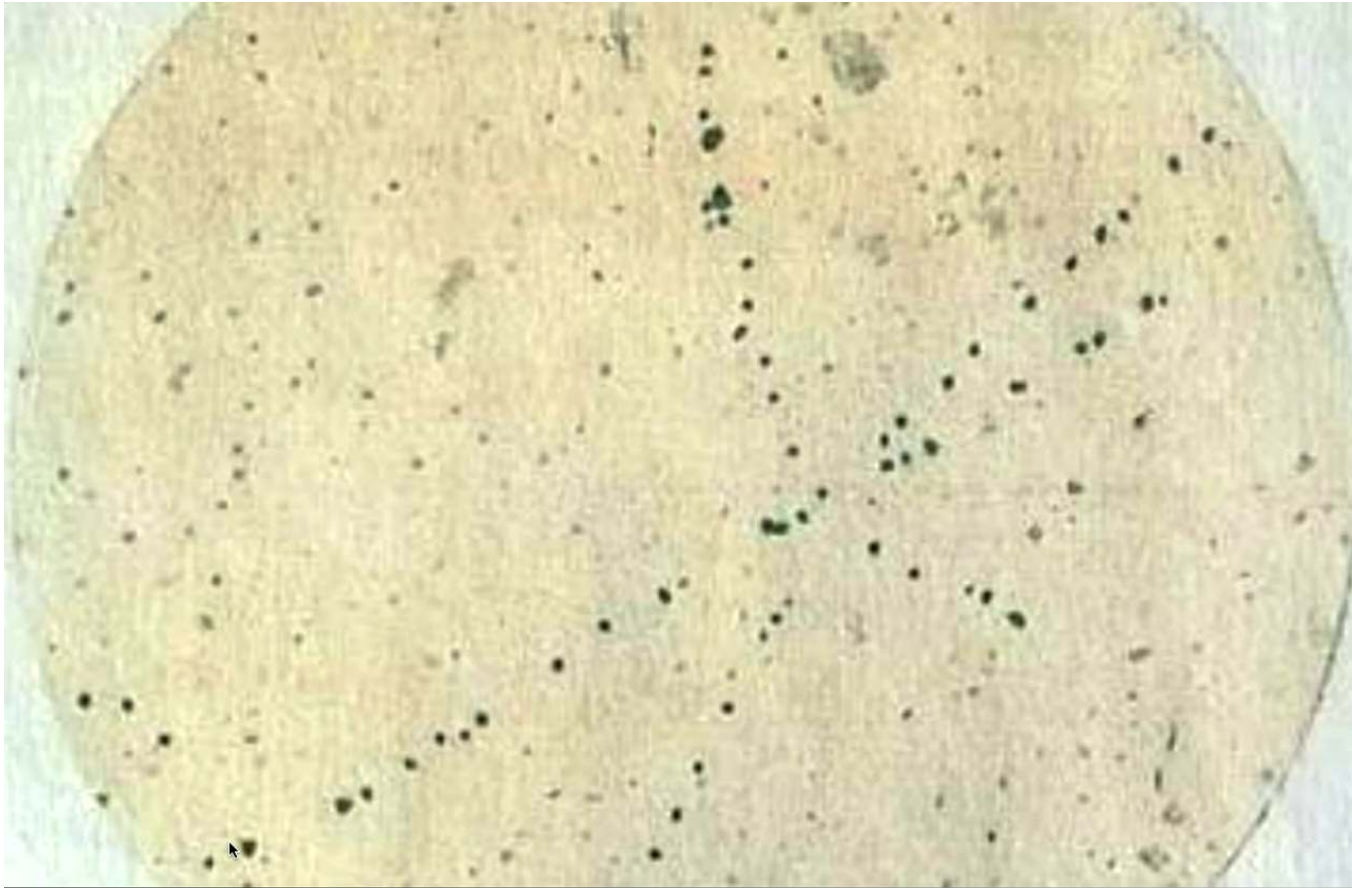

Wikipedia edit-a-thons aim to share stories of women in science more widely

Emily Chung · CBC News · Posted: Mar 08, 2019 12:00 PM ET | Last Updated: March 8, 2019

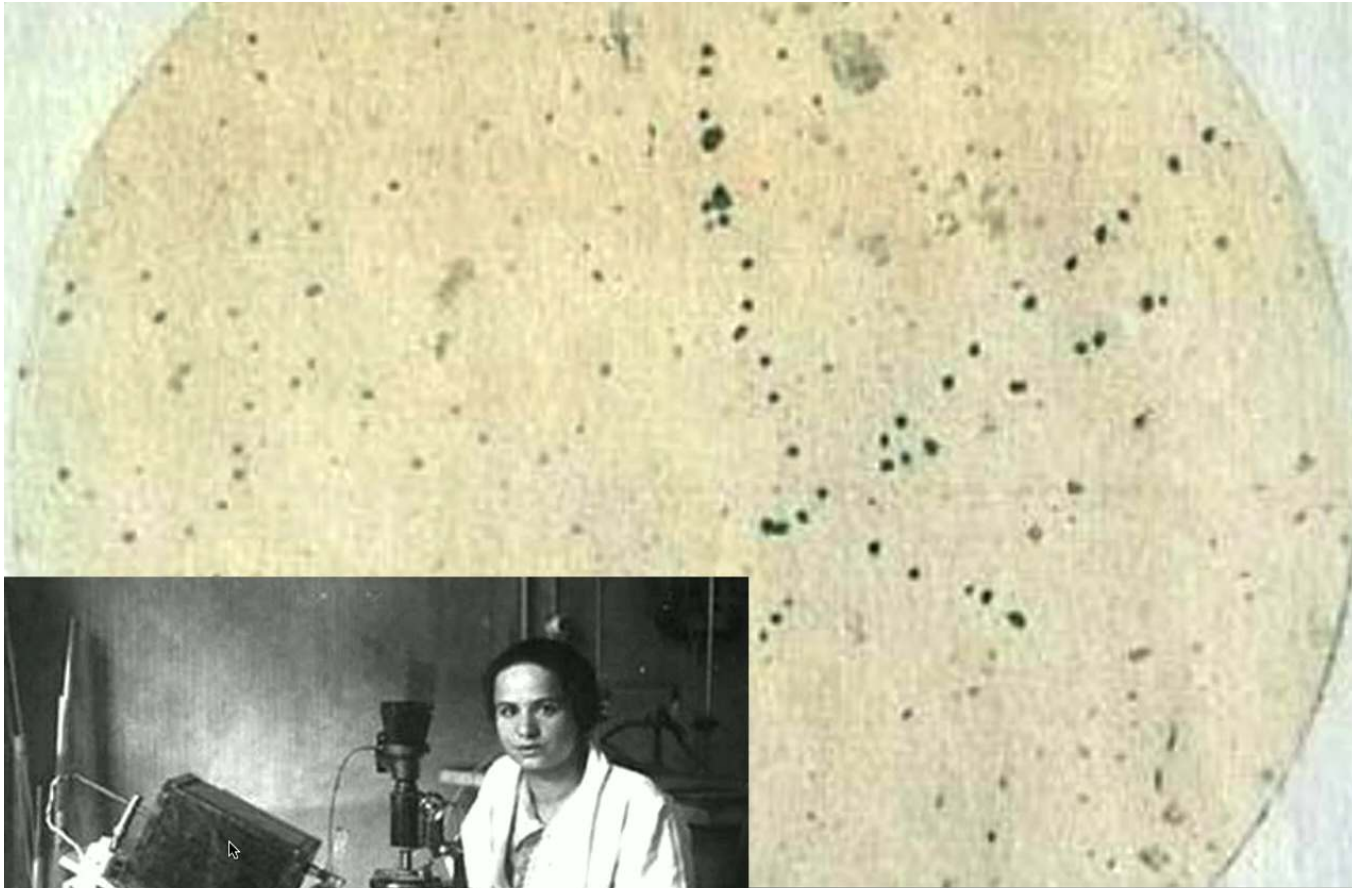

Prof. Donna Strickland shows the media her lab at the University of Waterloo after speaking about winning the Nobel Prize in Physics last October. Strickland didn't even have a Wikipedia entry until she
